Summary

Detail-oriented **Java Full Stack Developer** with hands-on experience in building end-to-end web applications using **Java, Spring Boot, and MySQL**. Proficient in designing **RESTful APIs** and developing responsive user interfaces. Eager to contribute to **real-world projects** and enhance technical expertise.

Technical Skills

Languages	Java, JavaScript
Frontend	HTML5, CSS3, Responsive UI Design
Backend	Spring Boot, RESTful APIs, Hibernate(Basic), Node.js (Express.js)
Databases	MySQL, SQL (Joins, Aggregations, Queries), MongoDB (NoSQL)
Core CS	Data Structures (Basics), Operating Systems
Java Concepts	OOP (Encapsulation, Inheritance, Polymorphism), Collections (Array List, HashMap), Exception Handling
Technologies	Git, GitHub, Maven, Postman, VS Code/IntelliJIDEA
Additional Skills	API Integration, Debugging, MVC Architecture, Basic System Design, Agile Methodolgy

Work Experience

Data Analyst Intern – Connect with 9

Jan 2025 – June 2025

- Analyzed real-world datasets to extract actionable insights, improving data-driven decision-making processes.
- Cleaned and transformed raw data using Excel and SQL, enhancing data accuracy and consistency.
- Built interactive dashboards and visual reports using data visualization techniques to present key business metrics.
- Identified trends, patterns, and KPIs to support business strategy and performance optimization.
- Collaborated with cross-functional teams to understand requirements and deliver analytical solutions efficiently.

Projects

VAULTEX- Designed to Store, Built to Protect

- **Tech Stack: Java, Spring Boot, React.js, AWS S3, REST APIs**
- Engineered a scalable cloud-based file storage system using AWS S3, improving storage efficiency by 40%.
- Developed secure REST APIs with Spring Boot for file upload, retrieval, and deletion with optimized performance.
- Integrated React.js frontend with backend services, enabling seamless and dynamic file management.
- Enhanced data access speed by 30% using optimized S3 operations and API handling.

Advanced Employee Payroll System

- **Tech Stack: Java, Spring Boot, MySQL, REST APIs**
- Built a full-stack payroll system automating employee management and salary processing, reducing manual effort by 50%.
- Designed scalable RESTful services for efficient CRUD operations and structured data handling.
- Optimized database queries and backend logic, improving system performance by 35%.
- Ensured data consistency and reliability through robust backend architecture.

NodeVerse - Scalable Object Storage System

- **Tech Stack: Node.js, Express.js, MongoDB, REST APIs**
- Engineered a backend-driven object storage system to manage large-scale unstructured data efficiently.
- Built secure and scalable RESTful APIs for file upload, retrieval, and deletion with optimized request handling.
- Leveraged MongoDB (NoSQL) for flexible metadata storage, enhancing query performance and scalability.
- Applied modular architecture and middleware-based design, improving code maintainability and system flexibility.
- Optimized API performance and database operations, resulting in faster response times and improved system efficiency.

Hostel Management System

- **Tech Stack: HTML, CSS, JavaScript, PHP, MySQL**
- Developed a centralized system to automate room allocation, booking, and student management processes.
- Implemented secure authentication and role-based access for admin and users.
- Streamlined operations like fee tracking and complaint management, improving efficiency by 40%.
- Designed responsive UI with real-time data handling for enhanced user experience.

Education

Bachelor of Technology — Computer Science Engineering

DCRUST University, Murthal

Sep 2022 – Jul 2026

Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks

Core Strengths

- Strong interest in building scalable and efficient **full-stack applications using modern technologies**.
- **Quick learner** with the ability to **adapt rapidly to new tools, frameworks, and development environments**.
- Passionate about **writing clean, maintainable code** and following best software development practices.
- Proven **problem-solving mindset** with hands-on experience in **debugging and optimizing applications**.
- Effective team collaborator with **strong communication skills** and **ability to work in agile environments**.
- **Self-motivated developer** with a consistent track record of **learning and implementing new technologies**.

Languages

- English (Professional Working Proficiency)
- Hindi (Native Proficiency)
