PROFESSIONAL SUMMARY

Final year B.Tech (Computer Science) student with strong programming skills in Python and hands-on experience with Machine Learning concepts, data analysis, and AI-driven workflows. Proficient in Python libraries including NumPy, Pandas, Matplotlib, and Seaborn, with exposure to ML frameworks. Experienced in data cleaning, EDA, KPI reporting, and risk analysis. Completed a 4-month industry training program and multiple virtual simulations leveraging GenAI and data analytics tools. Eager to apply analytical and problem-solving skills to an AI/ML Engineering role.

TRAINING & INTERNSHIP

Data Analyst Trainee | Gorakhpur

Dec 2025 – Apr 2026

Apana Time Tech Solutions (ISO 9001 Certified | Startup India Recognized)

- Completed a 4-month intensive Data Analyst Training Program with practical sessions, assignments, and project-based learning aligned with industry standards.
- Gained hands-on experience in data analysis workflows including data collection, cleaning, transformation, visualization, and reporting.
- Worked on real-world datasets applying SQL, Python (Pandas, NumPy, Matplotlib, Seaborn), and Power BI for end-to-end analytics solutions.
- Applied basic Machine Learning concepts and statistical analysis techniques to derive actionable business insights.
- Certificate ID: ATTS/TR25/162 | Issued: 20 April 2026

WORK EXPERIENCE

GenAI Powered Data Analytics Simulation

2026

TATA — Virtual Job Simulation

- Conducted exploratory data analysis and risk profiling using Python (Pandas, NumPy) for strategic decision-making.
- Leveraged AI-driven tools and GenAI techniques to automate insights and optimize business processes.
- Applied Machine Learning concepts including predictive modeling and pattern recognition for collections strategy.
- Delivered insights through data storytelling and structured reports, improving stakeholder engagement.

Data Analytics Job Simulation

2025

Deloitte — Virtual Job Simulation

- Analyzed structured datasets to identify patterns, risks, and business insights using Python and Excel.
- Designed and built an interactive data dashboard using Tableau, improving data accessibility for stakeholders.
- Applied consulting-style problem solving aligned with client and stakeholder requirements.
- Used statistical analysis and algorithmic thinking to classify data and draw business conclusions.

KEY PROJECTS

Customer Churn Analysis

Technologies: SQL, Python, Power BI

- Analyzed 10,000+ customer records using Python (Pandas, NumPy) and SQL to identify key churn drivers, contributing to a 25% reduction in churn rate.
- Built and evaluated predictive models to classify at-risk customers, applying ML concepts such as feature engineering and pattern recognition.
- Developed a Power BI dashboard for KPI tracking and data visualization, enhancing data-driven decision-making.

Customer Segmentation

Technologies: SQL, Python

- Grouped 5,000+ customers based on behavioral data using clustering techniques for targeted marketing strategies.
- Utilized Python (Pandas, NumPy, Scikit-learn) and SQL for data preprocessing, analysis, and model building.
- Derived actionable insights on customer segments to improve marketing efficiency and business outcomes.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science DCRUST University, Sonapat, Haryana, India	2022 – 2026
Intermediate – CBSE Doon Senior Secondary School, Muzaffarpur, Bihar	2018 – 2020 65%
Matriculation – CBSE PantoCrator Academy, Muzaffarpur, Bihar	2018 74%

TECHNICAL SKILLS

Languages & Querying: Python, SQL
Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn (basic)
ML / AI Concepts: Machine Learning, Deep Learning (fundamentals), EDA, Feature Engineering, Data Cleaning, Statistics
BI & Visualization Tools: Power BI, Tableau, Excel
Web Technologies: HTML/CSS (basic), JavaScript (basic)
Core Competencies: Data Cleaning, EDA, KPI Reporting, Risk Analysis, Customer Segmentation, Data Storytelling, Algorithmic Thinking
Soft Skills: Analytical Thinking, Problem-Solving, Communication, Attention to Detail, Time Management, Willingness to Learn

CERTIFICATIONS

- Data Analyst Training Program — Apana Time Tech Solutions (Certificate ID: ATTS/TR25/162, April 2026)
- Data Analytics Job Simulation — Deloitte via Forage
- GenAI Data Analytics Simulation — TATA via Forage
- SQL for Data Analysis — HackerRank
