

RISHABH DUBEY

AI/ML Engineer | NLP | LLM | Data Science | Python

Professional Summary

AI/ML Engineer with strong knowledge of Machine Learning, Deep Learning, NLP, Generative AI, and Data Analytics. Experienced in building AI-powered applications, sentiment analysis systems, LLM-based solutions, and business intelligence dashboards. Skilled in Python, SQL, Scikit-learn, TensorFlow, PyTorch, LangChain, OpenAI API, Power BI, Pandas, and NumPy. Passionate about solving real-world problems using data-driven and AI-based solutions.

Technical Skills

Programming: Python, SQL (MySQL), C++, JavaScript (Basics)

Machine Learning: Regression, Classification, Clustering, Feature Engineering, Model Evaluation, Cross Validation

Deep Learning: Neural Networks, CNN, RNN, LSTM, Transformers

NLP & Generative AI: Sentiment Analysis, NER, Tokenization, Prompt Engineering, OpenAI API, LangChain, RAG Concepts

Data Science: Pandas, NumPy, EDA, Statistical Analysis, Hypothesis Testing

Visualization: Power BI, Excel, Matplotlib, Seaborn

Tools: Git, GitHub, Jupyter Notebook

Projects

LLM-Based Question Answering System

- Developed an AI-powered Q&A application using OpenAI API and LangChain.
- Implemented prompt engineering and context-aware response generation.
- Built a modular pipeline for scalable NLP applications.

Sentiment Analysis Engine

- Built a sentiment classification model using Python and Scikit-learn.
- Applied TF-IDF vectorization, preprocessing, and model evaluation techniques.
- Improved prediction performance through hyperparameter tuning.

Netflix Data Analytics Project

- Performed data cleaning, exploratory data analysis, and visualization using Python and SQL.
- Identified content trends and business insights through dashboards and reports.

OLA Ride Analytics Dashboard

- Designed Power BI dashboard to analyze ride demand, revenue trends, and customer behavior.
- Generated actionable business insights for operational improvement.

Education

B.Tech in Computer Science Engineering (2022–2026)

IITM Group of Institutions

Certifications

- SQL (Advanced) – HackerRank (2026)
- Python for Machine Learning – Coursera (2025)
- Data Analytics Job Simulation – Deloitte Australia (Forage, 2025)
