

Skills

Hard Skills: HTML/CSS, React.js, JavaScript, C++, Generative AI, AI Model Optimization, Excel (Advanced), MySQL / JDBC, Django

Soft Skills: Communication, Time Management, Problem-Solving

Work Experience

Freelancing at outlier - Outlier AI Aug 2024 - Oct 2024

Generative AI, AI Model Optimization

- Enhanced AI response quality and relevance through review and rating processes
- Created prompts to improve output consistency and reduce errors
- Learned AI data annotation, prompt evaluation, and guideline adherence

Technical Projects

COFFEE WEBSITE 2025

HTML/CSS, JavaScript

🔗 [GitHub Repository](#) | 🔗 [Live Demo](#)

- The coffee website showcases products and brand story clearly, enhancing user experience.
- Developed with HTML, CSS, and JavaScript for responsiveness and mobile friendliness.
- Created a straightforward layout that simplifies navigation and encourages user interaction.

Hospital Management Systems 2025

HTML/CSS, PHP, JavaScript, MySQL

🔗 [GitHub Repository](#)

The project improved hospital workflow by offering a user-friendly platform for managing patients, doctors, and appointments. Built with Core PHP, MySQL, HTML, CSS, and JavaScript to ensure reliable data handling and smooth interface interactions. Focused on creating an organized system that sim

seek-2-Learn 2026

HTML/CSS, JavaScript

🔗 [GitHub Repository](#) | 🔗 [Live Demo](#)

The project improved user engagement by creating a visually appealing website with easy navigation, built using HTML, CSS, and JavaScript to enhance the overall experience. Designed to attract users and promote course enrollment through a clean, responsive interface. Focused on delivering a simple yet

Problem Solving & Data Structures

Proficient in problem-solving using JavaScript, HTML, CSS, React.js, C++, and SQL, I leverage algorithms and data structures to develop efficient solutions. I analyze system performance, optimize code for better efficiency, and deliver impactful results through projects like API integration and system management. Strong communication and time management skills enable effective collaboration and successful project execution.

Education

IITM Group Of Institutions

B.Tech | Computer Science Engineering (2022 -2026)

DCRUST

B. Tech / BE | Software Engineering (2026) CGPA: 7

G M COLLEGE

Class XII (2022) Percentage: 70

J P S SARSAULLA BARWA MOTIHARI

Class X (2020) Percentage: 50

Certifications

- [Kushal Yuva Program](#) - Government of Bihar (March 2020 - June 2022)
- Skills learned:** TypeScript, Excel (Advanced), PowerShell, MS Office
